

AUTOMATION PROJECT: Connection production to assembly

1. Equipment

Transportation system

- Conveyor
- Turntable
- Lifter
- Carrier
- Connection to the warehouse equipment
- Connection to ERP

2. Fully automated Warehouse

Warehouse/Production buffer

- Rack
- Stacker
- Housing
- Connection to conveyor system
- Connection to ERP system

• Comparison before and after implementation

Before:

- 12 Forklift
- 12 Operator
- High effort for safety training
- Manually warehouse control
- Manually production planning
- High effort for documentation

After:

- 0
- 0
- 0
- 0
- 0
- 0
